16 March 2023

Stephen Hatch
CCOS Regulation Manager
Rail for London Infrastructure

Dear Stephen,

APPROVAL OF PROPOSAL FOR CHANGE TO THE CROSSRAIL CENTRAL OPERATING SECTION (CCOS) NETWORK CODE

1. The Office of Rail and Road (ORR) has today approved a Proposal for Change (PfC) to the CCOS Network Code, which was submitted to it by Rail for London Infrastructure Limited (RfL(I)) on 13 March 2023.
2. This proposal amends Part C of the CCOS Network Code to streamline the process for making modifications to the Code where changes are reasonably necessary as a result of modifications to the Network Rail Network Code, or where RfL(I) receives no material written representations in respect of a CCOS PfC from consultees during the Consultation Period.
3. ORR has reviewed the consultation responses received, which were supportive of the proposal. ORR responded to the consultation with some suggested modifications, which have been adopted.
4. The approval of the PfC is consistent with ORR's section 4 duties.
5. In accordance with Condition C2.5 of the CCOS Network Code, the amendments shall have effect 14 days from the date of this notification.
6. In giving RfL(I) notice of approval ORR also copies this letter and attached notice to all parties identified under Condition A4.1 of the CCOS Network Code.
7. A copy of this letter, the approval notice and a marked up copy of Part C of the CCOS Network Code, showing all the proposed changes, will be placed on the ORR website. A copy of the approval notice will also be placed on the ORR's public register.

Yours sincerely

A handwritten signature in black ink that reads 'Kirstin Scott'.
