Dear Joanna

Anglia Route Study

I am writing to confirm that following consideration of the Anglia Route Study which was published on your website on 24 March 2016, the Office of Rail and Road has received no objections, and does not consider that there are any issues which are sufficiently material for us to issue a notice of objection.

I am copying this letter to members of the Rail Industry Planning Group and am placing a copy on our website.

Yours sincerely,

Nigel Fisher
