CONSULTATION REPORT

relating to

PROPOSED LAND DISPOSAL

This report is provided as a supplement to our forms for the proposed disposal of land at:

Site location and description: **Guildford Station, Surrey:** The land on the east side currently part of the Station Lease area. It is primarily used as station car parking for passenger and staff and part of the land is on a long lease (999 years) to the owners of Ranger House (adjacent office building currently owned by Surrey County Council).

The car parking will be consolidated into a multi storey car park. Station functions will be consolidated into an efficient layout primarily located in a new station building with car and cycle parking in the multi storey car park. Improved forecourt and public realm in front of the station.

Network Rail and developer Solum Regeneration are working with the Wessex Route Alliance, Guilford Borough Council and other stakeholders to finalise site layout and arrangements.

The reorganisation of the east side of the station frees up space for commercial and residential development which pays for delivery of the new station facilities.

**Proposal:** Long leasehold disposal of the land shown outlined on the attached plans No 1 and 2. It is expected a 250 year lease (s) will be granted to Solum Regeneration.

We have consulted in relation to this evaluation, and summarise the results of this as follows:

1.
Summary of position regarding responses: 27 Stakeholders were consulted. There were no objections. Responses were not received from Grand Central Rail, Northern Rail, COLAS Freight, GB Railfreight or Railfreight Group. **South West Trains** confirmed it supports the principle or the development and has given conditional approval (on Station Change and commercial arrangements). SWT confirmed it supports the principle or the development and has given conditional approval (on Station Change and commercial arrangements). **Surrey County Council** has expressed concerns over the forecourt operation. To address this: Network Rail with the developer, Solum, continues to work with SCC (and SWT) to refine the forecourt layout so that it is better for station operations and meets the future aspirations of the highway authority. This will be formalised in the Planning Process as part of an addendum to the Planning Application and in the Station Change. **British Transport Police:** Requested further follow-up meetings as the layout is progressed. Network Rail and Solum will be meeting BTP again shortly in the preparation for submitting Station Change and the addendum to the Planning Application.

25  **Passenger Focus** | Y | 03/03/2015 | "Considering only the land disposal, Passenger Focus has no objection"

26  **Guildford Borough Council** | Y | 01/06/2015 | Thank you for the notification in respect of the above. The Local Planning Authority is currently considering a planning application for this site and as such it would not be appropriate to comment on the disposal of this land. Any development proposed for this land will be subject to planning permission will be considered on its merits. The developer is working with local stakeholders and the planning authority on potential changes to the scheme (eg to heights of buildings and details of forecourt layout) and in due course will have to apply with any conditions of a planning consent.

27  **WH Malcolm** | Y | 09/02/2015 | "no objections"

A copy of the consultation request (before customisation for any individuals) is given in Annex 1

Copies of responses are given in the Annexes 2 to this report, as indicated above.

Subject: Guildford - Land Disposal Process - Formal consultation on proposal to for development of the east side of the station - the carpark, forecourt and east side station buildings

Dear Consultee,

Property: Guildford Station – East Side buildings, forecourt and car park

We seek to consult you as regards your views, on the proposed disposal by way of grant of a long lease(s) and re-development of the east side station buildings and forecourt.

We attach a draft application form to the Office of Rail Regulation which, with its related plan, explains the proposal in detail. Subject to the outcome of the consultation, we will make a formal application to ORR for consent to make the disposal under the terms of our network licence land disposal condition.

We would expect to make an application based on this form, updated in the light of consultation responses.

We request your comments, please, by close on Tuesday 3rd March 2015 (including any “no comment” or “no objection” response). It would be helpful if your response is provided by email.

If you have any queries as regards this proposal, please direct them to xxxx, Tel. 0207 , Email: @networkrail.co.uk. If future consultations of this nature should be directed differently to your organisation, please advise us of the appropriate contact details, so we may amend our records.

Yours faithfully,

Dear

**Guildford - Land Disposal Process**

Further to our conversation I confirm that we are able to offer our conditional approval to the land disposal proposed. We support the principle of the Solum Development and will continue to work with the development team to ensure our operational railways concerns are duly considered.

Our conditional approval is given on the assumption that the land will not be formally disposed of until South Western Trains Ltd has received and given its specific approval to the appropriate Station Change documentation which should include any relevant commercial arrangements.

Please contact either myself or xxxx directly if you require any further clarification.

Thanks for sight of the plans.

First Greater Western Limited remain supporting of the proposals, however, our support is based on the overall scheme, and as such approval so far doesn't automatically suggest signing up to the associated Station Change and any impact to Long Term Charge and/or Qualifying Expenditure without sight of the Change Proposal first.

Many thanks,

10 Surrey County Council
Dear
Thank you for this. The County Council remains in discussion with Solum regarding the planning application for the redevelopment of Guildford Station, I attach for your use a copy of our observations to the Planning Application. I would please ask that you digest and take these comments on board. One of our main concerns at this stage is that the Station Forecourt is able to properly serve as a public transport interchange in the future.

I have received a response from Solum's Transport Agent which I have not yet read, or attached here. I would happy to forward those to you on this understanding if you feel it would be useful?

Regards,
Planning & Development
Surrey County Council

Hello

Thank you for your email below.

Apologies for being off the radar for a while. The planning application was submitted and now Solum are amending the scheme following public and council consultation.

We would like to meet you together with the SWT team responsible for security. I will be in touch in the near future so we can update you and take your further advice.

Best regards

Hi

I am part of the consultation team for the Guildford Project and attended a scheme briefing and Secured by Design review workshop in Aug 2014 where the following was agreed;

All agreed the workshop had been very useful and there were no key issues that required addressing before application would be submitted.

Post planning approval (anticipated Jan 15) a series of meetings would be arranged to develop the design in line with best practice.

Should contact be required in the meantime they should contact the PM xxxx – @macegroup.com –

No subsequent meeting has taken place this year to date, so the above statement stands subject to the condition that safety and security of the railway is paramount and never compromised.

Kind Regards.

Hi

Have you received the Guildford LC7 consultation? I spoke to xxxx about it but don’t seem to have had a reply.

I am finalising the consultation report and would be delighted to hear from you on it.

Do let me know if you would like to discuss it.

Many thanks
Hello

ACoRP have no objection to this disposal.

Regards
ACoRP

24 London Travel Watch

Dear

London TravelWatch’s remit ends at London Road station. However, we are responding to this consultation, due to it’s proximity to Guildford station and the potential knock-on effects of the planned works.

We have no objections to the aforementioned proposal, but would like to ensure steps are taken to mitigate any impact the works may have on passengers at London Road and Guildford station.

Regards
25 Passenger Focus

Thank you for sending Passenger Focus details of the proposal to dispose of property in Guildford, and for the replies sent in reply to issues raised. They note it is part of a large redevelopment of the east side of the station, and that:

the land along the east side of the railway station comprises the main station building, other railway buildings, station car parking, other parking leased to Surrey CC, and access to other land;
the disposal is proposed to be by 250 year lease(s) to Solum Regeneration;
the intention is to redevelop the land as a “mixed use” scheme which will provide:
  a new station building with larger public areas,
  a multi-storey car park, new public spaces and improved forecourt,
  commercial retail and residential development;
  planning approval is currently expected sometime in the summer of 2015;

Network Rail will retain freehold ownership of operational land, and necessary access.

Passenger Focus also notes that:

access to the existing booking hall will be maintained until the new one is ready for use;
the station change process will be used for the temporary arrangements required during the development;
  a station change and minor modification will be issued for the alteration to the station lease that the redevelopment will require.

xxxx has met with you regarding specific aspects of what the scheme will mean for passengers at the station; Passenger Focus looks forward to representing passengers as the development progresses. xxxx, SWT’s stakeholder manager, has been in touch regarding dispensation for various features of the car parking.

Considering only the land disposal, Passenger Focus has no objection.

Regards,

Tel.
