Company Secretary
Network Rail Infrastructure Limited
Kings Place
90 York Way
London
N1 9AG

Network licence condition 7 (land disposal):
land north of the Tealby Building, Battersea Dogs and Cats Home, London
SW8.

Decision

1. On 13 March 2014, Network Rail gave notice of its intention to dispose of
land north of the Tealby Building, Battersea Dogs and Cats Home (BDCH), London
SW8, (the land) in accordance with condition 7.2 of its network licence. The land is
described in more detail in the notice (copy attached).

2. We have considered the information supplied by Network Rail including the
responses received from third parties you have consulted. For the purposes of
condition 7 of Network Rail’s network licence, ORR consents to the disposal of the
land in accordance with the particulars set out in Network Rail’s notice.

Reasons for decision

3. We are satisfied that Network Rail has consulted all relevant stakeholders
with current information. No objections were received. We note that:

- the proposed disposal would not affect adversely existing or future railway
operations; and
- Network Rail will retain ownership of the area beneath and next to the the
viaduct to enable operational access when necessary.

4. We have had regard to our decision criteria in Land disposal by
Network Rail: the regulatory arrangements, December 2013, and balanced our
section 4 duties given to us under the Railways Act 1993. In doing so, we have
given particular weight to our duty to exercise our functions in a manner which we
consider best calculated to “protect the interests of users of railway services”
(section 4(1)(a), referred to in paragraph 3.5(a)(ii) of the decision criteria).

1 Available from our website here.
5. Based on all the evidence we have received and taking into account all of the material views and facts relevant to our consideration under condition 7 of

6. Network Rail’s network licence, we have concluded that the proposed disposal is not against the interests of users of railway services and that our consent should be granted.

Rob Plaskitt
Proposed Property Disposal

Application by Network Rail Infrastructure Limited to dispose of land in accordance with the Land Disposal Condition of the Network Licence

1. Site

| Site location and description | Land north of Battersea Dogs & Cats Home (“BDCH”) Tealby Building, accessed via Battersea Park Road, London SW8 4AA
| | The property comprises two areas shown coloured blue (272 sq metres) and brown (106 sq metres) on the attached plan bounded by a retaining wall and fence to the northeast, a rail viaduct/bridge to the west and a 4-storey building (the “Tealby Building” owned by BDCH) to the south.
| Plans attached: (all site plans should be in JPEG format, numbered and should clearly show the site location approximate to the railway) | Plan 68090 shows Network Rail’s retained land coloured green with the blue area proposed for freehold disposal and the brown area proposed for access rights to be granted to BDCH.
The brown area (Access Area) is 3.5 metres wide, measured from the eastern edge of the adjoining rail viaduct.
| Clearance Ref: | CR/21681
| Project No. | N/A
| Ordnance survey coordinates | Easting 528882, Northing 177208 – TQ288772
| Photographs (as required) |
## 2. Proposal

| Type of disposal (i.e. lease / freehold sale) | 1. Sale Area (coloured blue) – freehold sale  
2. Access Area (coloured brown) – area over which access rights are to be granted with or without vehicles for all purposes, in perpetuity. |
| Proposed party taking disposal | Battersea Dogs and Cats Home (BDCH) or such other party or body associated with BDCH. |
| Proposed use / scheme | Planning permission has been granted for an eight-storey building for kennel, veterinary clinic and office use to be part constructed on the Sale Area. |
| Access arrangements to / from the disposal land | Network Rail will retain freehold ownership of the Access Area (brown) to enable operational access to the eastern and western sides of the rail viaduct. BDCH will access the Sale Area via its adjoining HQ complex to the south and the Access Area, using access rights beneath the viaduct to other BDCH-owned land to the northwest currently being transferred from Network Rail. |
| Replacement rail facilities (if appropriate) | Not applicable as no operational facilities are being disturbed. |
| Anticipated Rail benefits | The inclusion of restrictive covenants in the title documentation of the Sale Area will protect the interests of the operational railway. If the sale did not proceed the land could be lost through an adverse possession claim without the ability to impose suitable protective covenants. |
| Anticipated Non-rail benefits | None |
### 3. Timescales

| Comments on timescales | Exchange of contracts is planned within one month of obtaining regulatory consent to dispose of the property interests outlined above |

### 4. Railway Related Issues

| History of railway related use | Historic Ordnance Survey maps suggest that the land was at the end of some railway sidings in 1916 and was the site of a long narrow building adjoining a rail line that extended beneath a viaduct arch to the west. The building was removed post-1975, after which it has remained as open land. |
| When last used for railway related purposes | Sale Area (Blue land) - Not known Access Area (Brown land) – still used for access purposes by Network Rail for maintenance and inspection of the adjoining viaduct and arches. The Access Area will remain in Network Rail ownership. |
| Any railway proposals affecting the site | Not known |
| Impact on current railway | No impact. |
| Potential for future railway related use | After consultation with Network Rail’s Strategic Planning team and the Rail Utilisation Strategy it has been confirmed that the site has no specific allocation for future railway use. |
| Any closure or station change or network | None |
| Whether disposal affects any railway (including train operator) related | The Access Area (brown) is to be retained in the freehold ownership of Network Rail and enables access beneath the adjoining viaduct/bridge to the western side of the viaduct. The Sale Area (blue) does not enable access to other rail land. |

### Position as regards safety / operational issues on severance of land from railway

1. The disposal does not include any requirement for new fencing of the railway boundary, because its location or the nature of the disposal is such that the boundary demarcation is not needed.

2. The disposal is on a basis under which Network Rail has had due regard (where applicable) to impact of the disposal on lineside works, including railway troughing, signalling and their maintenance. The disposal is without prejudice to Network Rail’s safety obligations, with which Network Rail will continue to comply. Network Rail’s network licence requires compliance with Railway Group Standards. These set out requirements for – amongst other things – fencing, access and signal sighting. In addition, the Railways and Other Guided Transport Systems (Safety) Regulations 2006 require Network Rail to have a safety management system and safety authorisation in respect of its mainline railway system and its railway infrastructure. These, in turn, require Network Rail to comply with Railway Group Standards as well as its own internal standards; and also continually to monitor changes to the risks arising from its operations and to introduce new control measures as appropriate.
### 5. Planning History and Land Contamination

| Planning permissions / Local Plan allocation | Planning permission has been granted to Battersea Dogs and Cats Home for an 8-storey building for kennel, veterinary clinic and office use on the Sale Area. The land is within the Wandsworth Thames Policy Area. |
| Contamination / Environmental Issues (if applicable) | None known, but given the former rail use and nearby gasholders site there may be contamination or environmental issues. BDCH will be required to take responsibility for any such issues as part of the property disposal. |

### 6. Consultations

| Railway (internal – Network Rail) | The property has Business and Technical Clearance. |
| Summary of position as regards external consultations | Twenty-eight rail stakeholders were consulted on this proposal and twenty-two responses were received. No objections or significant comments were made by any of the respondents. The six consultees who did not respond were sent two email reminders on 6 and 19 February asking for responses, but none were received as noted in the Land Disposal Consultation Report. |
| Analysis of any unresolved objections together with recommendation by Network Rail as regards a way forward | No unresolved objections received |

### 7. Local Authorities

| Names & Email Addresses: | Wandsworth Council |
| Local Transport Authorities: | TfL |
| Other Relevant Local Authorities: | N/A |

### 8. Internal Approval

| Surveyor Name: |  |
| Approved by Property Development Manager | Name: |
| Date Approved by PDM: 10th March 2014 |  |
This report is provided as a supplement to our forms for the proposed disposal of land at

**Property:** Part of the property occupied by Battersea Dogs and Cats Home (BDCH) and leased from Network Rail, with accesses off Battersea Park Road and Sopwith Way, London SW8 4AA, known as land north of the Tealby building.

We have consulted in relation to this evaluation, and summarise the results of this as follows:

Summary of position regarding responses: Twenty eight rail stakeholders were consulted, as listed below. Six failed to respond. No objections to the proposed transactions have been received.

Annex 2 – Network Rail’s Consultation Request

Dear Consultee,

Property: Land at Battersea Dogs and Cats Home, Battersea Park Road – Land North of Tealby Building, London SW8 4AA

We seek to consult you as regards your views, please, on our proposed disposal by way of a freehold transaction and grant of access rights to Battersea Dogs and Cats Home at the above property. You may recall that you received a similar consultation request in September 2013. The attached consultation relates to land adjoining that which was the subject of the previous consultation.

We attach a draft application form to the Office of Rail Regulation which, with its related plan (Plan No 68090), explains the proposal in detail. Subject to the outcome of our consultation, we may make a formal application to ORR for consent to make the disposal under the terms of our network licence land disposal condition. We would expect to make an application based on this form, updated in the light of consultation responses.

Alternatively, if in the light of the consultation responses, the proposed disposal would qualify to be made under ORR’s general consent, we may complete it accordingly.

ORR reviewed our land disposal arrangements so that from 1 April 2008, ORR will no longer launch any separate consultations when we apply for consent to dispose of land. The arrangements are that we will consult and report the results to ORR in conjunction with our application. It is therefore important that we have your views, so that these may be considered in ORR’s decision.

We request your comments, please, by Monday 24th February 2014 (including any “no comment” response). It would be helpful if your response is provided by email.

If you have any queries as regards this proposal, please direct them to me, xxxx, (see contact details below). If future consultations of this nature should be directed differently to your organisation, please advise us of the appropriate contact details, so we may amend our records.

Yours faithfully,

Property Services (South East)
