Network licence Condition 17 (land disposal): Ardrossan South Beach station, North Ayrshire

Decision
1. On 15 March 2019, Network Rail gave notice of its intention to dispose of land at Ardrossan South Beach station, North Ayrshire (the land), in accordance with Condition 7 of its network licence. The land is described in more detail in the notice (copy attached).

2. We have considered the information supplied by Network Rail including the responses received from third parties consulted. For the purposes of Condition 17 of Network Rail’s network licence, ORR consents to the disposal of the land in accordance with the particulars set out in its notice.

Reasons for decision
3. We are satisfied that Network Rail has consulted relevant stakeholders with current information and no objections were left unresolved.

4. In considering the proposed disposal, we note that:
   - there is no evidence that railway operations would be affected adversely; and
   - no other reasonably foreseeable railway use for the land was identified.

5. In its consultation response to Network Rail, the British Transport Police made recommendations regarding the requirements for suitable fencing given the proximity of the land to the railway. Network Rail has stated to us that a condition of the sale will be that sports pitches must be designed to include “Ball Stop” fencing. We note this confirmation and also that it will remain Network Rail’s obligation, as dutyholder, to ensure that boundary fencing to the railway is – and remains – appropriate to prevent unauthorised access to the infrastructure.

6. Based on all the evidence we have received and taking into account all the material facts and views relevant to our consideration under Condition 17, we are satisfied that there are no issues for us to address.

---

1 From 1 April 2019, Condition 7 became Condition 17 in Network Rail’s network licence.

7. We have had regard to our decision criteria in *Land disposal by Network Rail: the regulatory arrangements, December 2013,* and balanced our section 4 duties given to us under the Railways Act 1993. In doing so we have given particular weight to our duty to exercise our functions in a manner which we consider best calculated to "protect the interests of users of railway services".

8. We have concluded that the proposed disposal is not against the interests of users of railway services. In light of that and our understanding of the transaction as set out above, we grant our consent to the proposed disposal of the land.

## 2. Proposal

<table>
<thead>
<tr>
<th>Type of disposal</th>
<th>Freehold Sale of approximately 18,146m² of land to Ardrossan Winton Rovers Football Club.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proposed party taking disposal</td>
<td>Ardrossan Winton Rovers Football Club.</td>
</tr>
<tr>
<td>--------------------------------</td>
<td>--------------------------------------</td>
</tr>
<tr>
<td>Proposed use / scheme</td>
<td>Ardrossan Winton Rovers Football Club wish to acquire the land to create a community sports hub. The football club are seeking a grant from the Scottish Land Fund, financed by the Scottish Government and delivered in partnership by the Big Lottery Fund and Highlands and Islands Enterprise. The proposed sports hub would comprise a community building incorporating a fitness hall, nursery and offices, running track, climbing wall, hill running track, adventure playground and a synthetic sports pitch for football and rugby.</td>
</tr>
<tr>
<td>Access arrangements to / from the disposal land</td>
<td>The land would be accessed directly from Winton Park, the home stadium of Ardrossan Winton Rovers Football Club. Vehicular access would be taken from Winton Street, Ardrossan.</td>
</tr>
<tr>
<td>Replacement rail facilities (if appropriate)</td>
<td>Not applicable as no rail facilities would be lost as part of the proposed disposal.</td>
</tr>
<tr>
<td>Anticipated rail benefits</td>
<td>There will be no direct rail benefits created by the disposal. As part of the proposed disposal, Ardrossan Winton Rovers Football Club will provide a right of pedestrian and vehicular access through the development. A set of access gates will be installed that will allow better access for Network Rail to access the telecommunications mast as well as other operational railway infrastructure.</td>
</tr>
<tr>
<td>Anticipated non-rail benefits</td>
<td>The purchase of the land will allow Ardrossan Winton Rovers to expand their community health and wellbeing initiatives. The proposal has support from the local Member of the Scottish Parliament who is keen to promote community facilities.</td>
</tr>
<tr>
<td><strong>3. Timescales</strong></td>
<td></td>
</tr>
<tr>
<td>Comments on timescales</td>
<td>It is anticipated that the purchase of the land will complete at the end of March 2019 subject to receipt of the ORR consent to the disposal.</td>
</tr>
</tbody>
</table>
### 4. Railway Related Issues

<table>
<thead>
<tr>
<th>History of railway related use</th>
<th>The proposed disposal area has been redundant for a considerable amount of time and is not operational. To the southern boundary there is an Electric Multiple Unit Siding (EMU) as well as a Global System for Mobile Communications-Railway (GSMR) radio mast. Access to these railway infrastructure features will be enhanced as part of the development.</th>
</tr>
</thead>
<tbody>
<tr>
<td>When last used for railway related purposes</td>
<td>Not known though understood to be over 50 years ago, when a locomotive shed was situated on the land. This locomotive shed was located within the triangle of lines between Ardrossan Town and Ardrossan South Beach. The shed opened in 1895 and closed in 1965, remaining in use as a signing-on point until 1967. It is believed that the locomotive shed was demolished in 1975.</td>
</tr>
<tr>
<td>Any railway proposals affecting the site since that last relative use</td>
<td>No railway proposals highlighted by the internal consultation when gaining clearance. The proposed disposal area is heavily vegetated. The triangular shaped disposal area is bounded by two operational railway lines and Winton Park football ground.</td>
</tr>
<tr>
<td>Impact on current railway related proposals</td>
<td>There are no known impacts on current railway related proposals. The disposal would not have a negative impact on Network Rail being able to access the siding or GSMR mast. Access would be improved with a dedicated access point being created through Winton Park and the disposed area.</td>
</tr>
<tr>
<td>Potential for future railway related use</td>
<td>The RUS has been reviewed and this has not revealed any specific strategic plans that require the use of the disposal land nor were any proposal highlighted during the internal clearance process. Ardrossan benefits from having three active railway stations. Ardrossan South Beach, Ardrossan Harbour and Ardrossan Town with sufficient capacity at each station.</td>
</tr>
<tr>
<td>Any closure or station change, or network change related issues</td>
<td>No. The property is remote from Ardrossan South Beach Station and there are no physical track connections or any operational infrastructure on the land.</td>
</tr>
<tr>
<td>Proposed land disposal evaluation form – Version 3.0</td>
<td>Page 4 of 6</td>
</tr>
<tr>
<td>--------------------------------------------------</td>
<td>-------------</td>
</tr>
</tbody>
</table>

### Whether disposal affects any railway (including train operator) related access needs, and how these are to be addressed in future

The disposal will not affect any train operator access needs as the disposed land is remote from Ardrossan South Beach and there are no physical rail connections. Network Rail will retain land ownership of the land highlighted in green on the attached plan and be able to access the operational infrastructure through the proposed new car park serving the Community Centre.

### Position as regards safety / operational issues on severance of land from railway

The disposal includes arrangements under which Ardrossan Winton Rovers will install new boundary fencing along the railway boundary. It is proposed that the height of the fence will be 2.4m and be installed under supervision from Network Rail’s Asset Protection team. Part of the proposed scheme includes sports pitches with 4m fencing required in these areas.

The disposal is on a basis under which Network Rail has had due regard (where applicable) to impact of the disposal on lineside works, including railway troughing, signalling and their maintenance. The disposal is without prejudice to Network Rail’s safety obligations, with which Network Rail will continue to comply. Network Rail’s network licence requires compliance with Railway Group Standards. These set out requirements for – amongst other things – fencing, access and signal sighting. In addition, the Railways and Other Guided Transport Systems (Safety) Regulations 2006 require Network Rail to have a safety management system and safety authorisation in respect of its mainline railway system and its railway infrastructure. These, in turn, require Network Rail to comply with Railway Group Standards as well as its own internal standards; and also continually to monitor changes to the risks arising from its operations and to introduce new control measures as appropriate.

### 5. Planning History and Land Contamination

<table>
<thead>
<tr>
<th>Planning permissions / Local Plan allocation (if applicable)</th>
<th>Ardrossan Winton Rovers propose applying for planning permission once the acquisition of the land is completed as the land is integral to their plans for the community.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contamination / Environmental Issues (if applicable)</td>
<td>No specific issues are known pertaining to this development. The council through their appointed consultants will adhere to all relevant environmental considerations.</td>
</tr>
</tbody>
</table>
6. Local Authorities

<table>
<thead>
<tr>
<th>Names &amp; Email Addresses:</th>
<th>North Ayrshire Council xx</th>
</tr>
</thead>
<tbody>
<tr>
<td>Local Transport Authorities:</td>
<td>North Ayrshire Council xxx</td>
</tr>
<tr>
<td>Other Relevant Local Authorities:</td>
<td>None</td>
</tr>
</tbody>
</table>

7. Internal approval to consult

<table>
<thead>
<tr>
<th>Recommendation:</th>
<th>By proceeding to consult I am:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• recommending that Network Rail consults on the terms of disposal</td>
</tr>
<tr>
<td></td>
<td>• confirming that I have read and understood Network Rail’s Code of Business Ethics and policy on Interests in Transactions</td>
</tr>
<tr>
<td></td>
<td>• confirming that I have secured internal written approval to consult in accordance with Network Rail’s policy on Authorising Application Forms.</td>
</tr>
</tbody>
</table>

8. Consultations

<table>
<thead>
<tr>
<th>Internal consultation</th>
<th>Internal Network Clearance (Business and Technical) has been obtained as referred to in section 1 of this form. Copies are attached as part of the email application submission. Access to the GSMR mast will be retained to allow Network Rail to maintain the mast.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summary of position as regards external consultations</td>
<td>On the 8th of November twenty-six external consultees were contacted with details of the freehold disposal and proposed use. Over a ten-week period we received a response from all but one consultee. A couple of questions and suggestions were made but there were no objections with most consultees making no comment.</td>
</tr>
</tbody>
</table>
From the consultation there were no objections. John Sears of Transport Focus commented that it would be better that the communication mast be moved to make the site more regular and less open to trespass. It was explained that Network Rail had decided that mast would not be moved however this scheme will allow us better access through the sports centre facility which we previously never had, and the boundaries will also be well fenced.

British Transport Police made a series of recommendations in relation to sports pitches being so close to the railway and in that regard sufficient fence lines to prevent footballs or other like items coming into contact with overhead electrification and to prevent Trespass onto the railway by way of a shortcut or to retrieve balls. They would recommend to that end, the developer adopts “Sports Fencing” which can be of a weld mesh design and be in the region of a minimum 4mt high, supplemented by 1mt of concrete blocks around the base.

### 9. Internal approval to dispose

<table>
<thead>
<tr>
<th>Recommendation:</th>
<th>Based on the above, I recommend that Network Rail proceeds with the disposal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Declaration:</td>
<td>I have read and understood Network Rail’s code of Business Ethics and Policy on Interests in Transactions</td>
</tr>

CONSULTATION REPORT

relating to

PROPOSED LAND DISPOSAL

This report is provided as a supplement to our forms for the proposed disposal of land at:

| Site location and description: Consultation on proposed land disposal: Ardrossan South Beach Station, Winton Road, Ardrossan. |

We have consulted in relation to this evaluation, and summarise the results of this as follows:

| Summary of position regarding responses: Having contacted all consultees there are no objections with many having no comments on the Scheme. |

| British Transport Police have no objections but have made a series of recommendations in relation to sports pitches being so close to the railway and in that regard sufficient fence lines to prevent footballs or other like items coming into contact with overhead electrification and to prevent Trespass onto the railway by way of a shortcut or to retrieve balls. They would recommend to that end, the developer adopts “Sports Fencing” which can be of a weld mesh design and be in the region of a minimum 4mt high, supplemented by 1mt of concrete blocks around the base. |
XX XX of Transport Focus commented that it would be better that the communication mast be moved to make the site more regular and less open to trespass. It was explained that Network Rail had decided that mast would not be moved however this scheme will allow us better access through the sports centre facility which we previously never had, and the boundaries will also be well fenced.

Hi

No objection from Acorp

25 British Transport Police
Good Afternoon

With Regards to your Reference:- CR /33981 Ardrossan South Beach Station I have to report as follows:-

British Transport Police:- Reference Number CRU-2018-2008

About 1130hrs on Tuesday 20th November 2018 I visited the site location of:- Ardrossan South Beach Station.

I can confirm from a British Transport Police perspective, we have no objection to the disposal of land as detailed.

This land for disposal presently lies on the Line Engineers Ref 1LGS2 (SC073) Kilwinning to Largs

During my site visit to the Proposed Land Disposal Site I noted evidence of Trespass on the Ardrossan South Beach to Largs line. However this appears to have gone unreported there was however an incident on 16th August 2018 where 25-30 youth stoned the Glasgow Central-Ardrossan Harbour train at Ardrossan South Beach.

I further observed the line heading to Ardrossan Town and walked round past Winton Rovers Football ground and noted at Winton Court, Ardrossan a low wall adjacent to the football ground where evidence of access was visible.(Image) On crossing over the railway footbridge leading into Barrie Terrace, this street comprises of low rise primarily 4 in a block dwellings which have large rear gardens forming a boundary with the railway. I noted that the boundary fence line appears to comprise of 1.8mt Class 3 weldmesh and appears to be fit for purpose.

I do however have some reservations with regards to this sale of land. The purpose of which the land is to be put is commendable and will benefit the youth within the community. The location of the prosed development lies within two railway lines both busy and overhead electrification in place. On each of the respective elevations there is residential dwellings and I fear for Youth Trespass.

With this regard I would have to comment as follows.
Recommendations

- Any development must be mindful of access onto the railway and in that regard sufficient fence line to prevent footballs or other like items coming into contact with overhead electrification.
- Preventative fence line to prevent Trespass onto the railway by way of a shortcut or to retrieve balls.
- I would recommend to that end, the developer adopts “Sports Fencing” which can be of a weld mesh design and be in the region of a minimum 4mt high, supplemented by 1mt of concrete blocks around the base.

Subject: RE: Ardrossan land sale 0611c19

Has re-aligning the siding to a new site alongside one of the through lines, and moving the mast been considered? Given the nature of the proposal for a sports hub, leaving the siding in its current position could, apart from making the disposal site very irregular, leave it more open to trespass.

Regards,

Hi

Thanks for your comments.
It was decided that mast would not be moved however this scheme will allow us better access through the sports centre facility which we previously never had.

The boundaries will also be well fenced.

Regards

Noted. It does seem an odd decision.

Subject: Re: LAND DISPOSAL- ARDROSSAN SOUTH BEACH STATION, WINTON ROAD, ARDROSSAN 0611c19

Thank you for sending Transport Focus details of the proposed land disposal in Ardrossan, and for the additional information you provided. They note that:

the disposal is of an area of about 18,150 square metres, once the site of a loco shed and running lines;

it is in the angle between the Largs and Ardrossan Harbour lines west of South Beach station;

it is to be sold, freehold, to Ardrossan Winton Rovers Football Club;

the land will be used for a community sports hub, with various facilities, including a climbing wall;

the new owners will install 2.4 metre-high fencing, and ensure that the climbing wall isn’t close to the new boundary;

Network Rail will have access rights across the land, with a dedicated access point;

there is no railway use for the land;

completion is expected in March, 2019.
Transport Focus has no objection to the proposed disposal.

Dear consultee,

Property: LAND DISPOSAL- ARDROSSAN SOUTH BEACH STATION, WINTON ROAD, ARDROSSAN, KA22 8JG

We seek to consult you as regards your views, please, on our proposed disposal by way of freehold sale.

We attach a draft application form to the Office of Rail and Road which, with the related plan(s), explains the proposal in detail. Subject to the outcome of our consultation, we may make a formal application to ORR for consent to the disposal, as required under the terms of our network licence land disposal condition. We would expect to make an application based on this form, updated in the light of consultation responses. It is therefore important that we have your views, so that these may be considered in ORR’s decision.

Alternatively, if in the light of the consultation responses, the proposed disposal would qualify to be made under ORR’s general consent, we may complete it accordingly.

We request your comments, please, by Friday 7th December 2018 (including any “no comment” response). It would be helpful if your response is provided by email. Should no response be received by Friday 7th December 2018, and having made reasonable endeavours to obtain a response, we will proceed with our application to ORR or General Consent form on the basis that there is no objection.
We will make reasonable endeavours to resolve any objections raised within two months of the consultation closing date. Should resolution not be achieved within this period, or should a response to our request for supporting justification or a meeting not be received within one month of the request, we will proceed with the application to ORR seeking consent should we still believe that it is appropriate to pursue the land disposal. In seeking that consent, we will describe what we have done to seek to resolve any concerns and why we believe that the land disposal should proceed. We will inform you when we proceed with the application to ORR.

If you have any queries as regards this proposal, please direct them to @networkrail.co.uk. If future consultations of this nature should be directed differently to your organisation, please advise us of the appropriate contact details, so we may amend our records.

Yours faithfully,

Surveyor

Dear consultee,

Further to my e-mail on the 8th of November on the disposal by way of freehold sale we received no response from your organisation on our proposal. We would appreciate if you could peruse the information attached and reply with your comments.

Should we receive no response we will proceed with our application to ORR or General Consent form on the basis that there is no objection.

We will make reasonable endeavours to resolve any objections raised within two months of the consultation closing date. Should resolution not be achieved within this period, or should a response to our request for supporting justification or a meeting not be received within one month of the request, we will proceed with the application to ORR seeking consent should we still believe that it is appropriate to pursue the land disposal. In seeking that consent, we will describe what we have done to seek to resolve any concerns and why we believe that the land disposal should proceed. We will inform you when we proceed with the application to ORR.

If you have any queries as regards this proposal, please direct them to , Mob: or Email: @networkrail.co.uk. If future consultations of this nature should be directed differently to your organisation, please advise us of the appropriate contact details, so we may amend our records.

Yours faithfully,
