EXPLANATORY NOTE

(This note is not part of the exemption.)

This exemption provides for the grant of exemption from the licensing provisions of the Railways Act 1993.

Article 3 provides for the Company to be exempt from the requirement to hold a licence to be the operator of the railway assets specified in article 4.

Article 4 provides that the exemption applies in respect of the specified light maintenance depots operated by the Company.

A light maintenance depot is any land or other property which is normally used for or in connection with the provision of light maintenance services, whether or not it is also used for other purposes. Normal use will usually be inferred from the presence at the depot of specialised equipment such as refuelling points or cleaning apparatus, or specially constructed or adapted accommodation for the provision of such light maintenance services.
