

APPLICATION TO THE OFFICE OF RAIL AND ROAD FOR A PASSENGER TRACK ACCESS CONTRACT, OR AN AMENDMENT TO AN EXISTING CONTRACT

ORR ensures that train operating companies have fair access to the rail network and that best use is made of capacity. If a train operator wants to access the national railway network, it will need a track access agreement with Network Rail which requires ORR's approval under the Railways Act 1993. When determining access to the network, we must have regard to our <u>statutory duties</u>, most of which are set out in section 4 of the Act. We must exercise our functions (which include the approval of access contracts) in a way that we consider best achieves those duties.

Use this form to apply to the Office of Rail and Road (ORR) for a passenger track access contract, or an amendment to an existing contract by a supplemental agreement, under sections 17-22A or the Railways Act 1993.

It sets out ORR's standard information requirements for considering applications. Our <u>track access</u> <u>guidance</u> (and our <u>making an application</u> guidance in particular) explains the process, timescales and the issues we will consider. Please read the guidance before completing the contract and this form.

If the facility owner and beneficiary have agreed terms, the facility owner should fill in the form. If not, the beneficiary should fill in the form.

A pre-application industry consultation is usually required before submitting an application. Please see the industry code of practice for track access application consultations for more information.

This form should be completed up to section 10 and sent to consultees along with a copy of the proposed contract or supplemental agreement. Sections 10 and 11 should be filled in after the consultation and before applying to ORR.

We are happy to talk to you informally before you apply. Please contact us here. You can download a copy of this form, and of our model track access contract, from our website. Please ensure that you are using the latest version of this form as published on our website. We may ask for applications which have not used the latest version to be resubmitted.

You may also use and adapt this form if necessary to apply to use railway facilities other than those of Network Rail. Do not use this form for HS1, for which a separate form is available on our website.

3. The proposed contract or amendment

3.1 Application overview: Please detail the proposed contract or amendment. This should cover the services, the commercial terms, and the reasons for making the application in the terms proposed. This information should be laid out clearly and concisely, and fully highlight the changes from the previous version of the contract (in the case of an amendment). Date of commencement: Principal Change Date 2025 End Date: Subsidiary Change Date 2028 Schedule 5 amendments – EM03 Liverpool – Norwich One additional service Nottingham - Manchester Piccadilly via Derby, departing Nottingham at 08.25 and arriving at Manchester 10.42, on Sunday morning. An extension of the 12.45 Sheffield - Norwich to start from Manchester Piccadilly at 11.41 on Sunday morning. This application meets the "20 May criteria" because it requires capacity on the MML between Derby and Sheffield. 3.2 Safety risks: Please explain any important safety risks that have been identified arising from the proposal and how these will be controlled (by reference to the facility owner's safety authorisation and the train operator's safety certificate). Not applicable 3.3 Contract duration: For new agreements or extensions to existing agreements, please provide justification for the proposed duration and, if more than 5 years, with reference to the Railways (Access, Management and Licensing) Regulations 2016. Not applicable 3.4 Terms not agreed with the facility owner (for applications under sections 17 or 22A only): Please explain any areas of the application which have <u>not</u> been agreed, the reasons for the failure to agree and the reasons for seeking these provisions. The Network Rail Customer Managers have been briefed and aware of the upcoming work. It is our intention to start industry consultation as soon as practically possible. 3.5 Bespoke provisions (departures from ORR's model access contracts) Does the proposed contract include any departures from ORR's model access contract: Yes No \boxtimes If yes, please set out and explain any: areas where the drafting of the application changes ORR's published template access contracts (as appropriate, cross-referencing to the answers below). Please also explain why these departures have been made.

Not Applicable

 instances where the proposal departs from the charging and/or performance regimes established by ORR's latest periodic review (or subsequent interim reviews) as reflected in ORR's model access contracts, including the financial implications (e.g. establishment of an access charge supplement or rebate).

Not Applicable

• new processes (e.g. a self-modification provision) which have been added. Please also demonstrate fully how this new process is robust and complete.

Not Applicable

3.6 Consolidated contract

For amendments to existing contracts, is the version of the consolidated contract on our <u>website</u> fully up to date? If not, please explain why not.

Yes, the consolidated contract is fully up to date.

4. The impacts of the proposal

4.1 Benefits: please set out what specific benefits the proposal will achieve. Please describe the benefits to passengers and any impact on other operators, including freight operators.

East Midlands Railway is seeing strong growth in the leisure market, and the enhancements we are proposing will significantly improve the Sunday morning service between the East Midlands and Manchester. The main benefits of this application are as follows:

- An earlier train from Nottingham to Sheffield arriving 09:35 vice 10:35.
- An earlier train from Nottingham to Manchester arriving 10:42 vice 11:36
- An earlier direct train from Manchester to Nottingham departing 11:41 vice 12:44.
- Passengers travelling from Nottingham to Birmingham can depart at 08:54 vice 08:25 and arrive in Birmingham at the same time.
- On a Sunday morning there is a 1 hour 17-minute gap in the service from Derby to Sheffield between 08:28 and 09:45, the additional train at 08:57 will address this issue.

4.2 Capacity: How have you satisfied yourself that there is enough network capacity for the services in the proposal? Please include details on all relevant capacity considerations, including but not limited to track, platform availability, and power supply traction.

East Midlands Railway has identified potential paths. It requires some minor flexing to other services in the Manchester area because of track patrolling on a Sunday morning. All relevant F3 prints are included in Appendix A and based on a cut of the December 2024 database on the 09 April 2024.

4.3 Performance: What is the impact on network performance? Please outline your assurance process that shows that any performance risk is tolerable in comparison to the benefits of the application. Please explain any risk mitigations. Please attach any associated evidence to support your case.

East Midlands Railway do not anticipate any additional performance risk because of this application.

4.4 Maintenance and renewals: Are there any implications for the facility owner's maintenance and renewal activities? This application is compliant with the Network Rail Engineering Access Statement. 5. The expression of access rights 5.1 Changes to rights: please provide full descriptions of any new rights required, as compared to the previous contract (in the case of an amendment). Please attach a fully marked-up version or document comparison of any tables in Schedule 5 which are being modified as a result of this application. The description of changes to access rights is summarised in section 3.1, and in the marked-up tables provided in Annex A and Annex B in the Supplemental Agreement. **5.2 Flexing rights:** Please explain any limitations on the facility owner's flexing rights in the proposal and the rationale for such limitations. None 5.3 Specified equipment: Please explain any changes to specified equipment (rolling stock). Has the vehicle and route acceptance procedure in the Network Code (Part F) has been completed? Please explain whether you have, or will have, the rolling stock necessary to exercise the rights. Not Applicable **5.4 Contractual obligations:** Are the proposed services necessary to fulfil obligations under a public service contract? For publicly contracted operators seeking additional access rights, we will expect to see evidence of funder support for the specific rights and of operators' intent and ability to operate the new services. Not Applicable 5.5 Public funding: Other than the DfT, Welsh Government or Transport Scotland, are the proposed services subject to financial support from central or local government including PTEs. If so, please give details. Not Applicable 5.6 Long Term Planning Process: Is the Long Term Planning Process (or similar devolved authority or regional service delivery project) relevant to this application? If so, please explain how the proposed rights are consistent or inconsistent with this. Not Applicable

6. Competing passenger services:

We would expect to apply the 'not primarily abstractive' test to:

- a new open access service which would compete with franchised services and so impact on the public sector funder's budget;
- (ii) a new franchised service which would compete with an existing franchised service, where we would expect to focus the test on areas where the competing franchised services are operated on behalf of different funders or where for some other reason there are particular concerns over the impact on a funder's budget; and
- (iii) a new service, which might be open access or franchised, which would compete with an existing open access service and which, if it caused the existing open access operator to withdraw from the market, could reduce overall competition on the network.
- 6.1 Please state if your application is for a competing passenger service, and if so please describe the nature of the competition:

Not Applicable	
6.2 For competing services, please also confirm that you have attached as part of your su ORR the following:	ubmission to
 Business plan, including details of: forecasts of passenger traffic and revenues, including forecast methodology; pricing strategies; ticketing arrangements; rolling stock specifications (e.g. load factor, number of seats, wagon configuration); marketing strategy; 	
 estimated elasticities of the services (e.g. price elasticity, elasticity with respect to quality characteristics of the services). Demand forecasting (including associated spreadsheet models) demonstrating 	
modelled generation : abstraction ratio. Indicative timetables, including associated .spg files	
7. Incentives	
7.1 Train operator performance: please describe any planned performance improvement and/or enhancement projects associated with the operation of the proposed services improving operator performance.	
East Midlands Railway, in partnership with East Midlands Route, has a published p strategy for the network, which is fully aligned with the industry PIMS framework, and is d ongoing programme of T-3 improvement focusing on timetable building blocks which h changes to dwell and sectional running times.	elivering an
7.2 Facility owner performance: please describe any planned performance improveme and/or enhancement projects associated with the operation of the proposed service improving the facility owner's performance.	
Not Applicable	

7.3 Monitoring of services: Will all proposed services be monitored for performance throughout their

journey? If not, please explain.

Yes
7.4 Performance regime changes (for applications under sections 17 or 22A only): where applicable, please provide justification for any changes to Schedule 8 of the track access contract in the proposal. If necessary, please provide any relevant information in support of the changes proposed.
Not Applicable
8. Enhancement
8.1 Enhancement details: where the proposal provides for the delivery of any network enhancements, or the services in the proposal are subject to any planned network enhancements, please give full details of the relevant enhancement schemes, including a summary of outputs from the scheme, timescales and the extent to which the network change procedure in the Network Code (Part G) has been completed (where appropriate, by reference to submissions made under ORR's enhancement reporting framework).
Not Applicable
8.2 Enhancement charges: please confirm that the arrangements for the funding of any network enhancements are consistent with the <u>investment framework</u> , and summarise the level and duration of payments, and the assumed rate of return.
Not Applicable
9. Other
9.1 Associated applications to ORR: please state whether this application is being made in parallel with, or relates to, any other current or forthcoming application to ORR (e.g. in respect of track, station or light maintenance depot access contracts). Where the application is being made in parallel with any other application from the same operator, please ensure the applications are consistent with one another. Where the application relies on another operator relinquishing access rights, please provide evidence that this process has been completed.
EMR's 18th Supplemental Agreement to update changes because of the remapping of EM05 and EM04 Service Groups as part of the PR23 Sch4/8 Recalibration. The drafting is underway and is expected to be submitted informally to the ORR for approval by end of May 2024
9.2 Side letters and collateral agreements: please confirm here that the whole of the proposal between the parties has been submitted with this application and that there are no side letters or other documents which affect it.
Not Applicable
9.3 Confidential redactions: please list any information that you have redacted from any documentation sent to consultees. If there has been no pre-application consultation, please list any information you want us to exclude from publication. Please provide full reasons for any redactions.

Not Applicable

Form

10. Pre-application consultation

10.1 The consultation:

If consultation has not been carried out, explain why not. If it has, please list the consultees.

In the letter issued on the 24th April 2024, ORR requested industry submit all applications for additional or amended rights by the 20th May 2024. It has therefore not been possible in the limited time available to carry out a consultation. However, we have discussed our proposal with Network Rail and will begin industry consultation as soon as reasonably possible.

Rail and will begin industry consultation as soon as reasonably possible.
Who conducted the consultation?
Not Applicable
List all consultees who responded and include their responses and any associated documentation or correspondence between the parties.
Not Applicable
10.2 Resolved issues: please explain any issues raised by consultees which have been resolved.
Not Applicable
10.3 Unresolved issues: Please explain any issues raised by consultees which have <u>not</u> been satisfactorily resolved and why you think these issues should not stop ORR approving the application.
Not Applicable
10.4 Subsequent Changes: Have any changes been made to the proposal following consultation?
Not Applicable
11. Certification
Warning: Under section 146 of the Railways Act 1993, any person who, in giving any information or making any application under or for the purposes of any provision of the Railways Act 1993, makes any statement which he knows to be false in a material particular, or recklessly makes any statement which is false in a material particular, is guilty of an offence and so liable to criminal prosecution.
For agreed applications under section 18 or 22, Network Rail should complete the information below. For disputed applications under section 17 or 22A, the beneficiary should complete it.
I certify that the information provided in this form is true and complete to the best of my knowledge
