

APPLICATION TO THE OFFICE OF RAIL AND ROAD FOR A PASSENGER TRACK ACCESS CONTRACT, OR AN AMENDMENT TO AN EXISTING CONTRACT

ORR ensures that train operating companies have fair access to the rail network and that best use is made of capacity. If a train operator wants to access the national railway network, it will need a track access agreement with Network Rail which requires ORR's approval under the Railways Act 1993. When determining access to the network, we must have regard to our [statutory duties](#), most of which are set out in section 4 of the Act. We must exercise our functions (which include the approval of access contracts) in a way that we consider best achieves those duties.

Use this form to apply to the Office of Rail and Road (ORR) for a passenger track access contract, or an amendment to an existing contract by a supplemental agreement, under sections 17-22A or the Railways Act 1993.

It sets out ORR's standard information requirements for considering applications. Our [track access guidance](#) (and our [making an application](#) guidance in particular) explains the process, timescales and the issues we will consider. Please read the guidance before completing the contract and this form.

If the facility owner and beneficiary have agreed terms, the facility owner should fill in the form. If not, the beneficiary should fill in the form.

A pre-application industry consultation is usually required before submitting an application. Please see the industry [code of practice for track access application consultations](#) for more information.

This form should be completed up to section 10 and sent to consultees along with a copy of the proposed contract or supplemental agreement. Sections 10 and 11 should be filled in after the consultation and before applying to ORR.

We are happy to talk to you informally before you apply. Please contact us [here](#). You can download a copy of this form, and of our model track access contract, from our [website](#). Please ensure that you are using the latest version of this form as published on our website. We may ask for applications which have not used the latest version to be resubmitted.

You may also use and adapt this form if necessary to apply to use railway facilities other than those of Network Rail. Do not use this form for HS1, for which a separate form is available on our [website](#).

1. Application Summary

1.1 Beneficiary company name:

South Yorkshire Future Trams Ltd trading as South Yorkshire Supertram (SYS)

1.2 Facility owner details:

Network Rail:	<input checked="" type="checkbox"/>				
Region:	Southern <input type="checkbox"/>	Eastern <input checked="" type="checkbox"/>	North West & Central <input type="checkbox"/>	Wales & Western <input type="checkbox"/>	Scotland's Railway <input type="checkbox"/>
Other Facility Owner:	<input type="checkbox"/>	Please state:			

1.3 Application under the Railways Act 1993 section:

17	<input type="checkbox"/>	18	<input type="checkbox"/>	22	<input type="checkbox"/>	22A	<input checked="" type="checkbox"/>
Supplemental Number:						11th	
Current contract date:						4 th May 2018	
Current contract expiry date:						1 st April 2028	

1.4 Applicant status:

Public Service Operator <input checked="" type="checkbox"/>	Public service contract start date:	
	Public service contract end date:	
	Name of funder (e.g. DfT, Local Authority):	SYMCA
	Does the funder support this application?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Open Access	<input type="checkbox"/>	
Charter Operator	<input type="checkbox"/>	

1.5 Executive summary of the proposed contract or amendment:

This Supplemental Agreement seeks to add a call at the proposed new tram train station at Templeborough, Rotherham, adjacent to the Magna Science and Adventure Park, into the existing calling pattern. There is no change to the quantum of services run; this is an additional call on the existing route. Entry into service of the proposed station is not expected until mid-2025 at the earliest, with construction anticipated to commence in December 2024.

It is not certain whether this application falls within the scope of the ORR's letter of April 24th 2024 regarding competing and complex access applications; a decision on this is requested from the ORR.

Proposed commencement date:	Immediate
End date:	Expiry date of current contract
Date approval or directions wanted by:	05-JUNE-2024

1.6 Industry consultation:

Who carried out the consultation?	Network Rail		
Consultation start date:	21 May 2024	Consultation end date:	21 June 2024
Not carried out	<input type="checkbox"/>		

1.7 Applicant details

<p><u>Facility Owner</u> Company: Network Rail Infrastructure Limited ("Network Rail") Contact individual: Alexis Xoufarides Job title: Customer Manager Address: Floor 4B, George Stephenson House, Toft Green, York YO1 6JT Telephone: [REDACTED] E-mail: [REDACTED]</p>	<p><u>Beneficiary</u> Company: South Yorkshire Future Trams Limited Contact name: Keith Swallow Job title: Head of Finance & Commercial Address: Nunnery Depot, Woodbourn Road, Sheffield S9 3LS Phone: [REDACTED] E-mail: [REDACTED]</p>
--	---

1.7 Date of application to ORR: 20th May 2024

1.8 Checklist of documents attached to the application form:

- Proposed new contract (S17 or S18) or supplemental agreement (S22 or S22A)
- Marked up Schedule 5 (where applicable)
- Marked up comparison to model contract (where applicable)
- All consultation correspondence
- Supporting documentation required for competing services (see section 6.2)
- Other supporting documents, side letters or collateral agreements (please list):

2. Licence and railway safety certificate

2.1 Please state whether:

- you intend to operate the services yourself; or
- have them operated on your behalf.
 - if so, please name the proposed operating company:

2.2 Does the proposed operator of the services:

- (a) hold a valid train operating licence under section 8 of the Railways Act 1993 or an exemption under section 7, **and**
- (b) hold a valid safety certificate under the Railways and Other Guided Transport Systems (Safety) Regulations 2006.

If the answer to (a) **or** (b) is no, please state the point reached in obtaining a licence, exemption and/or safety certificate.

Not applicable

3. The proposed contract or amendment

3.1 Application overview: Please detail the proposed contract or amendment. This should cover the services, the commercial terms, and the reasons for making the application in the terms proposed. This information should be laid out clearly and concisely, and fully highlight the changes from the previous version of the contract (in the case of an amendment).

- Schedule 5: a marked up Table 4.1:

4 Calling Patterns

Table 4.1: Calling Patterns

1					2	3
Service Group SJ01 ^{2nd}						
Service description						
Between	And	Via	Description	TSC	Regular Calling Pattern	Additional stations
Tinsley Junction.	North Parkgate	Rotherham Central	Passenger Tram Train service	21591001	Magna, Rotherham Central	

- Once the new station has become operational, an updated Variable Transfer Point map and EBM table may be required for Annex B to Part 3 of Schedule 4.

3.2 Safety risks: Please explain any important safety risks that have been identified arising from the proposal and how these will be controlled (by reference to the facility owner's safety authorisation and the train operator's safety certificate).

Not applicable

3.3 Contract duration: For new agreements or extensions to existing agreements, please provide justification for the proposed duration and, if more than 5 years, with reference to the [Railways \(Access, Management and Licensing\) Regulations 2016](#).

Not applicable

3.4 Terms not agreed with the facility owner (for applications under sections 17 or 22A only): Please explain any areas of the application which have **not** been agreed, the reasons for the failure to agree and the reasons for seeking these provisions.

Not applicable

3.5 Bespoke provisions (departures from ORR's model access contracts)

Does the proposed contract include any departures from ORR's model access contract:

Yes No

If yes, please set out and explain any:

- areas where the drafting of the application changes ORR's published template access contracts (as appropriate, cross-referencing to the answers below). Please also explain why these departures have been made.

Not applicable

- instances where the proposal departs from the charging and/or performance regimes established by ORR's latest periodic review (or subsequent interim reviews) as reflected in ORR's model

access contracts, including the financial implications (e.g. establishment of an access charge supplement or rebate).

Not applicable

- new processes (e.g. a self-modification provision) which have been added. Please also demonstrate fully how this new process is robust and complete.

Not applicable

3.6 Consolidated contract

For amendments to existing contracts, is the version of the consolidated contract on our [website](#) fully up to date? If not, please explain why not.

Yes

4. The impacts of the proposal

4.1 Benefits: please set out what specific benefits the proposal will achieve. Please describe the benefits to passengers and any impact on other operators, including freight operators.

The proposal will improve public transport and sustainable transport connectivity, and improve access to employment sites, Enterprise Zones, development sites, or an urban centre that offers particular growth/employment opportunities - the scheme proposes investment in a new public transport facility which provides improved access to opportunities.

4.2 Capacity: How have you satisfied yourself that there is enough network capacity for the services in the proposal? Please include details on all relevant capacity considerations, including but not limited to track, platform availability, and power supply traction.

Timetable modelling has been carried out in conjunction with the Network Change proposal for the new station, which concludes that the additional call at Magna will not adversely impact capacity. Interactions with Northern services at Rotherham Central Station can be mitigated by shortening the turnaround at Parkgate.

4.3 Performance: What is the impact on network performance? Please outline your assurance process that shows that any performance risk is tolerable in comparison to the benefits of the application. Please explain any risk mitigations. Please attach any associated evidence to support your case.

As per 4.2 above

4.4 Maintenance and renewals: Are there any implications for the facility owner's maintenance and renewal activities?

No implications

5. The expression of access rights

5.1 Changes to rights: please provide full descriptions of any new rights required, as compared to the previous contract (in the case of an amendment). Please attach a fully marked-up version or document comparison of any tables in Schedule 5 which are being modified as a result of this application.

There are no changes to quantum of rights, however the calling pattern will be changed to reflect the call at the new station.

5.2 Flexing rights: Please explain any limitations on the facility owner's flexing rights in the proposal and the rationale for such limitations.

Not applicable.

5.3 Specified equipment: Please explain any changes to specified equipment (rolling stock). Has the vehicle and route acceptance procedure in the Network Code (Part F) has been completed? Please explain whether you have, or will have, the rolling stock necessary to exercise the rights.

Not applicable.

5.4 Contractual obligations: Are the proposed services necessary to fulfil obligations under a public service contract? For publicly contracted operators seeking additional access rights, we will expect to see evidence of funder support for the specific rights and of operators' intent and ability to operate the new services.

Not applicable.

5.5 Public funding: Other than the DfT, Welsh Government or Transport Scotland, are the proposed services subject to financial support from central or local government including PTEs. If so, please give details.

SYS is owned by the South Yorkshire Mayoral Combined Authority.

5.6 Long Term Planning Process: Is the Long Term Planning Process (or similar devolved authority or regional service delivery project) relevant to this application? If so, please explain how the proposed rights are consistent or inconsistent with this.

No

6. Competing passenger services:

We would expect to apply the 'not primarily abstractive' test to:

- (i) a new open access service which would compete with franchised services and so impact on the public sector funder's budget;
- (ii) a new franchised service which would compete with an existing franchised service, where we would expect to focus the test on areas where the competing franchised services are operated on behalf of different funders or where for some other reason there are particular concerns over the impact on a funder's budget; and
- (iii) a new service, which might be open access or franchised, which would compete with an existing open access service and which, if it caused the existing open access operator to withdraw from the market, could reduce overall competition on the network.

6.1 Please state if your application is for a competing passenger service, and if so please describe the nature of the competition:

Not applicable

6.2 For competing services, please also confirm that you have attached as part of your submission to ORR the following:

- Business plan, including details of:
 - forecasts of passenger traffic and revenues, including forecast methodology;
 - pricing strategies;
 - ticketing arrangements;
 - rolling stock specifications (e.g. load factor, number of seats, wagon configuration);
 - marketing strategy;
 - estimated elasticities of the services (e.g. price elasticity, elasticity with respect to quality characteristics of the services).
- Demand forecasting (including associated spreadsheet models) demonstrating modelled generation : abstraction ratio.
- Indicative timetables, including associated .spg files

7. Incentives

7.1 Train operator performance: please describe any planned performance improvement initiatives and/or enhancement projects associated with the operation of the proposed services aimed at improving operator performance.

None

7.2 Facility owner performance: please describe any planned performance improvement initiatives and/or enhancement projects associated with the operation of the proposed services aimed at improving the facility owner's performance.

None

7.3 Monitoring of services: Will all proposed services be monitored for performance throughout their journey? If not, please explain.

Yes

7.4 Performance regime changes (for applications under sections 17 or 22A only): where applicable, please provide justification for any changes to Schedule 8 of the track access contract in the proposal. If necessary, please provide any relevant information in support of the changes proposed.

Not applicable

8. Enhancement

8.1 Enhancement details: where the proposal provides for the delivery of any network enhancements, or the services in the proposal are subject to any planned network enhancements, please give full details of the relevant enhancement schemes, including a summary of outputs from the scheme, timescales and the extent to which the network change procedure in the Network Code (Part G) has been completed (where appropriate, by reference to submissions made under ORR's enhancement reporting framework).

Not applicable

8.2 Enhancement charges: please confirm that the arrangements for the funding of any network enhancements are consistent with the [investment framework](#), and summarise the level and duration of payments, and the assumed rate of return.

Not applicable

9. Other

9.1 Associated applications to ORR: please state whether this application is being made in parallel with, or relates to, any other current or forthcoming application to ORR (e.g. in respect of track, station or light maintenance depot access contracts). Where the application is being made in parallel with any other application from the same operator, please ensure the applications are consistent with one another. Where the application relies on another operator relinquishing access rights, please provide evidence that this process has been completed.

Not applicable

9.2 Side letters and collateral agreements: please confirm here that the whole of the proposal between the parties has been submitted with this application and that there are no side letters or other documents which affect it.

I can confirm that the whole of the proposal between the parties has been submitted with this application and that there are no side letters or other documents which affect it.

9.3 Confidential redactions: please list any information that you have redacted from any documentation sent to consultees. If there has been no pre-application consultation, please list any information you want us to exclude from publication. Please provide full reasons for any redactions.

Not applicable.

10. Pre-application consultation

10.1 The consultation:

If consultation has not been carried out, explain why not. If it has, please list the consultees.

Who conducted the consultation?

Alexis Xoufarides (Network Rail)

List all consultees who responded and include their responses and any associated documentation or correspondence between the parties.

Responses were received from Northern Trains, Great Western Railway, DB Cargo, Transport Focus and CrossCountry. These have been collated and can be found in Appendix 1 to this Form P.

10.2 Resolved issues: please explain any issues raised by consultees which have been resolved.

N/A

10.3 Unresolved issues: Please explain any issues raised by consultees which have not been satisfactorily resolved and why you think these issues should not stop ORR approving the application.

CrossCountry Trains Limited (XCTL) objected to the application on the grounds that the proposed services would have an adverse impact on their services. The objection is based on the assumption that SYFTL trains would call at Magna at 35-minute intervals, which was the timetable initially proposed. Network Rail notes that a) timetable work is ongoing, b) that XCTL have since accepted the Network Change proposal for the construction of Magna station, and c) while this Supplemental Agreement seeks to grant the right to call at the new Magna station and makes no reference to frequency of calls, Network Rail has advised SYFTL that it the application will not be supported until a workable timetable has been agreed. Work is ongoing between SYFTL, the Combined Mayoral Authority and Network Rail to resolve the potential issues caused by the Magna call, and. Network Rail anticipates that XCTL will be able to withdraw their objection upon conclusion of this work.

10.4 Subsequent Changes: Have any changes been made to the proposal following consultation?

No changes have been made to this application since consultation. However, at the time the application was submitted the new Magna station was expected to have been operating by the May 2025 timetable change, and this has proven not to be the case. Network Rail would therefore expect this application to be resubmitted with a revised effective date. Network Rail also notes that no bid for a Magna call was submitted for the December 2025 timetable.

11. Certification

Warning: Under section 146 of the Railways Act 1993, any person who, in giving any information or making any application under or for the purposes of any provision of the Railways Act 1993, makes any statement which he knows to be false in a material particular, or recklessly makes any statement which is false in a material particular, is guilty of an offence and so liable to criminal prosecution.

For agreed applications under section 18 or 22, Network Rail should complete the information below. For disputed applications under section 17 or 22A, the beneficiary should complete it.

I certify that the information provided in this form is true and complete to the best of my knowledge

Signed [REDACTED] Date18th December 2024...

Name (in caps) ...ALEXIS XOUFARIDES... Job title ...Customer Manager.....

For (company)Network Rail.....

12. Submission

12.1 What to send: please supply the application form, the proposed contract or amendment and, where possible, any other supporting information, in electronic form by e-mail, **in plain Microsoft Word or Open Document Text format** (i.e. excluding any macros, auto-para or page numbering, or other auto-formatting).

12.2 Where to send it:

Email: [REDACTED]
