

GE Capital response

Please find my comments below regarding the current proposals for ROGS.  
I have no comments for questions 1 - 10.

*Question 11: Do you have any other comments in relation to the issues raised in this consultation document (and annexes)?*

1. There appears to be no proposed wording for Regulation 18A (b) to allow for the transitional provisions included in Article 12 of Commission Regulation (EU) No. 445/2011. In particular clause 3 of this article is applicable within the United Kingdom and therefore I would suggest requires recognition within the proposed UK regulations.
